21st Century Project Letter #06-007

TO: 21st Century Project Department Stakeholders

RE: **21st Century Project Contracts Signed**

We are pleased to announce that contracts have been signed between the State and SAP Public Services, Inc., the software vendor for the 21st Century Project, and BearingPoint, Inc., the system integrator. The project formally started June 12, 2006.

Team BearingPoint is now located at the 21st Century Project facility in West Sacramento and the entire 21st Century Project Team is working on project preparation, building the plans that will create the roadmap for implementing the new Human Resources/Payroll System statewide.

The next key phase of the project will be Blueprint, beginning August 2006, where we will work directly with stakeholders to determine specific business needs in order to configure the SAP solution during the project realization phase.

Thank you for your continued support. Please send any questions regarding the project to
21stcentury@sco.ca.gov.

Don Scheppmann, Chief, Business Operations
